

Louis Yudowitz - Curriculum Vitae

Personal Information

Email: yudowitz@kth.se

Website: lmyudowitz.github.io

Nationality: United Kingdom/United States of America

Languages: English

Current Research Interests

Nonlinear partial differential equations, geometric flows (primarily Ricci flow), Einstein manifolds, minimal surfaces.

Education

- 2019-2023** **PhD in Mathematics** at Queen Mary University of London. Supervisor: Reto Buzano.
- 2018-2019** **Master of Advanced Study in Mathematics (MASt)** at the University of Warwick.
- 2015-2018** **BSc Mathematics and Computer Science** at King's College London.

Academic Employment

- 2023-Present** **Postdoctoral Researcher**, KTH Royal Institute of Technology.
- Involved teaching responsibilities and supervision of master's students. See later sections for more details.
- 2019-2023** **Teaching Assistant**, Queen Mary University of London.
- See Teaching Experience section for more details.

Awards

- May 2022** **QMUL Ann Cook Prize for Best Talk (2nd for Best Talk)**: "Refined Compactness Theorems for Gradient Shrinking Ricci Solitons".

- June 2021** QMUL Ann Cook Prize for Best Poster (1st): “Bubble Tree Convergence of Ricci Solitons”.
- 2019-2023** Queen Mary University of London Faculty of Science and Engineering Research Studentship.

Publications and Preprints

Kröncke, Klaus; Yudowitz, Louis. *Dynamical Stability and Instability of Poincaré–Einstein Manifolds*. Preprint. arXiv: 2312.13011.

Buzano, Reto; Yudowitz, Louis. *Bubble Tree Convergence and Local Diffeomorphism Finiteness for Gradient Ricci Shrinkers*. Math. Z. Vol. 304, No. 7 (2023).

Buzano, Reto; Yudowitz, Louis. *Gaussian Upper Bounds for the Heat Kernel on Evolving Manifolds*. J. London Math. Soc. Vol. 108, No. 5, pp. 1747-1768 (2023).

Works in Preparation

Semi-Continuity of the Morse Index for Ricci Shrinkers.

Generic Uniqueness for Ricci Expanders Coming out of Cones.

Talks Given

- July 2024** Junior Meeting Einstein Geometry and Special Holonomy: “Dynamical Stability and Instability of Poincaré–Einstein Manifolds”.
- Feb. 2024** KTH Differential Geometry and General Relativity Seminar: “Perelman Functionals for a Class of Intrinsic Geometric Flows”.
- Jan. 2024** University of Copenhagen Geometry Seminar: “Dynamical Stability and Instability of Poincaré–Einstein Manifolds”.
- Jan. 2024** KTH Differential Geometry and General Relativity Seminar: “Dynamical Stability and Instability of Poincaré–Einstein Manifolds”.
- Oct. 2023** KTH Differential Geometry and General Relativity Seminar: “Semi-Continuity of the Morse Index for Ricci Shrinkers”.

Oct. 2023	The Crazy World of Arthur L. Besse: A Workshop on Einstein Manifolds: “Bubble Tree Convergence of Shrinking Ricci Solitons”.
July 2023	Workshop on Einstein Spaces and Special Geometry, Institut Mittag-Leffler: “Bubble Tree Convergence of Shrinking Ricci Solitons”.
May 2023	Ghent Methusalem Junior Seminar: “Bubble Tree Convergence of Shrinking Ricci Solitons”.
Jan. 2023	KTH Differential Geometry and General Relativity Seminar: “Bubble Tree Convergence of Gradient Ricci Shrinking Solitons”.
Nov. 2022	Brunel University Math and Statistics Colloquium: “Ricci Flow, the Poincaré Conjecture, and Bubbles”.
Oct. 2022	KIT Geometric Analysis Seminar: “Bubble Tree Convergence of Gradient Ricci Shrinking Solitons”.
Sept. 2022	9 th Heidelberg Laureate Forum: “Bubble Tree Convergence and Diffeomorphism Finiteness of Gradient Ricci Shrinking Solitons”.
Jan. 2022	KCL/UCL Junior Geometry Seminar: “Bubble Tree Convergence of Gradient Ricci Shrinking Solitons”.
Nov. 2021	Queen Mary Internal Postgraduate Seminar (QuIPS): “Ricci Flow and the Poincaré Conjecture”.

Programming Skills

Languages known: Java, Mathematica, Python, R.

Teaching Experience

KTH ROYAL INSTITUTE OF TECHNOLOGY:

Calculus in Several Variables, Fall Semester, 2023/2024: Substitute lecturer, ran exercise classes and seminars.

QMUL:

Tutorials for *Probability and Statistics I*, Fall Semester 2022/2023.

Tutorials for *Calculus II*, Spring Semester 2021/2022.

Tutorials for *Actuarial Mathematics I*, Fall Semester 2021/2022 and 2022/2023.

Tutorials for *Vectors and Matrices*, Spring Semester 2019/2020.

Supervision of MSc Students

KTH ROYAL INSTITUTE OF TECHNOLOGY:

- 2023-2024** Axel Båvegård (in collaboration with Nordea Bank Abp). *Comparing Performance of Retrieval-Augmented Generative Models, a Case Study.*
- 2023-2024** Hugo Walles Granberg (in collaboration with Nordea Bank Abp). *Comparing Performance of Retrieval-Augmented Generative Models, a Case Study.*
- 2023-2024** Tora Olsson (in collaboration with the Karolinska Institutet). *Implementation, Optimization and Evaluation of Deep Learning Algorithms for Olfactory Bulb Segmentation.*

Outreach and Service

2022-2023 Math Circle Head Tutor and Organizer

- Participated in math circles and “math battles” as a tutor for students aged 11-18.
- Focused on developing problem solving skills and enjoyment of math by working through various sorts of problems (e.g. area, modular arithmetic, combinatorics).
- Organized and led a math circle at Queen Mary University of London during the 2022/2023 academic year.

2021-2023 QMUL Undergraduate Seminar Organizer

- Helped run and organize a seminar to expose Queen Mary undergraduate students with the following aims:
 1. Expose them to topics they might not see during their degree and allow them to give talks on their own mathematical interests.

2. Give advice on further studies and jobs.
 3. Create a space where students can interact with the rest of the department in a more casual manner.
- Was officially recognized by the QMUL Math Department for enhancing undergraduate engagement.

**2017-
2018**

King's Factor Tutor at King's College London

- Taught A-level students (Years 12 and 13), primarily from less advantaged backgrounds, and introduced them to higher level mathematical problems not normally seen during A-levels.
- Guided students through problems taken from past MAT and STEP papers.

**2015-
Present**

Private Tutor for UK (GCSE and A-level) and US (AP level) Students

- Taught both groups and individuals in preparation for GCSE/A-level/AP exams.
- Subjects taught: Chemistry, Mathematics, Physics, Statistics.

Other

**2023-
Present**

Reviewer for zbMATH Open.

**2023-
Present**

Associate Fellow of the Higher Education Academy, UK.

- Recognition of evidence-based teaching methods and professional standards.

**2022-
Present**

Member of the London Mathematical Society.
